

2023 Summer School Class Descriptions

KINDERGARTEN & ELEMENTARY ACADEMICS

CLASS	GRADES	TIME	CLASS DETAILS
Session 1: Math Procedures and Problem Solving <i>Academic Class</i>	K5	8:00 AM– 9:55 AM	Kindergarten for 5-year-olds Arithmetic: <i>(Faith Baptist Schools does not use Common Core strategies to teach math).</i> K5 Arithmetic is a wonderful course for students who want to work ahead and get a jump start on their math skills for our K5 school year. This class will pick up where our K4 arithmetic left off, and your child will build his addition skills and be introduced to subtraction. Students will also learn to identify and write numbers 1-100. If you want your child to have a great transition into K5, this is the class for you!
	1	8:00 AM – 9:55 AM	1st-Grade Arithmetic: <i>(Faith Baptist Schools does not use Common Core strategies to teach math).</i> 1st-Grade Traditional Arithmetic prepares your child for a successful transition to Faith Baptist’s first-grade math program. This math session will emphasize addition and subtraction procedures, and students will also review numbers and their values, as well as learn how to read calendars, count money, graph, and tell time. If a student already has a good grasp of these concepts, he would be considered for our advanced arithmetic class. 1st-Grade Advanced Arithmetic begins with the same skills as our traditional curriculum, but it is designed for students who completed our K5 program. This class moves more quickly than our traditional class, and it covers more material, giving your child the advantage of a stronger foundation for first grade.
	2	8:00 AM – 9:55 AM	2nd-Grade Arithmetic: <i>(Faith Baptist Schools does not use Common Core strategies to teach math).</i> 2nd-Grade Arithmetic builds on the arithmetic skills learned in our first grade, giving students a great introduction to second-grade curriculum and a great head start for the fall! Students will continue to learn subtraction with borrowing, addition with carrying, counting money, tell time, solving story problems, and multiplication facts. If a student already has a good grasp of these concepts, he would be a suitable candidate for the advanced class.
	3	8:00 AM – 9:55 AM	3rd-Grade Arithmetic: <i>(Faith Baptist Schools does not use Common Core strategies to teach math).</i> 3rd-Grade Arithmetic builds on the skills learned in our second grade (addition, subtraction, multiplication, division, time, story problems, long division, Roman numerals, money, and rounding). In this class, our teachers work really hard to help each student master these basics so they can effectively build on these skills during the upcoming academic year. If a student already has a good grasp of these concepts, he would be a suitable candidate for the advanced class.
	4	8:00 AM – 9:55 AM	4th-Grade Arithmetic: <i>(Faith Baptist Schools does not use Common Core strategies to teach math).</i> 4th-Grade Arithmetic is the perfect class if your child needs additional instruction or practice in long division or multiplication, if he is new to Faith Baptist, or if you would like for him to build a stronger foundation in arithmetic. We will be focusing on mastering multiplication, division, measurement conversions, fractions, and more with the goal of helping your child solve arithmetic problems more efficiently. If a student already has a good grasp of these concepts, he would be a suitable candidate for the advanced class.
5	8:00 AM – 9:55 AM	5th-Grade Arithmetic: <i>(Faith Baptist Schools does not use Common Core strategies to teach math).</i>	

2023 Summer School Class Descriptions

5th-Grade Arithmetic will cover many of the key units of our fifth-grade math textbook. We will review addition, subtraction, multiplication, and division of whole numbers, decimals, and fractions, and we will introduce algebraic and geometric concepts and formulas. This instruction will review some of the concepts learned in the fourth grade but will also introduce the critical-thinking requirements of our fifth-grade math. Learning these skills really helps to prepare students for our fifth-grade math program.

6

8:00 AM –
9:55 AM

6th-Grade Arithmetic:

(Faith Baptist Schools does not use Common Core strategies to teach math).

6th-Grade Traditional Arithmetic prepares students for the first semester of math in our sixth grade. Students who take this course will get a review of arithmetic operations and build their pre-algebra and geometry skills. Students will learn the basics of numeration, the four operations, solving equations, working with integers, while building their fraction and decimal skills. Current Faith Baptist students entering seventh grade who need to make up a D or F in Math 6 must enroll in Pre-Algebra—1st Semester, which covers the second half of Math 6.

Session 2: Reading and Language Arts

Academic Class

K5

10:05 AM –
12:00 PM

Kindergarten for 5-year-olds Reading, Phonics, & Letters:

K5 Reading, Phonics, & Letters is the perfect way to build your child's foundational reading skills. After just five weeks of instruction, students will learn how to read one- and two-vowel words as well as words with consonant blends. Students will also build their phonetic knowledge as we practice special sounds and complete spelling worksheets each week. This course is a great way to prepare for Faith Baptist's K5 kindergarten program.

1

10:05 AM –
12:00 PM

1st-Grade Reading & Language Arts:

Continue to prepare for a smooth transition from K5 to first grade in 1st-Grade Reading, Phonics, & Letters. This valuable program will take a phonetic approach to build your child's reading skills, training them to read accurately and expressively. Students will learn to apply basic writing and grammar rules through short story writing and the construction of a friendly letter. Students will also learn capitalization rules, proper punctuation, and spelling strategies.

2

10:05 AM –
12:00 PM

2nd-Grade Reading Comprehension, Vocabulary, Grammar & Composition:

This reading course is designed to help students entering second grade improve their reading skills and build their vocabulary. Teachers will use our phonetic approach to teach reading to help each student read more smoothly and improve their overall reading comprehension. Our goal in this class is to build each student's reading confidence and help them develop a love for reading. In the grammar and composition component of the class, our students will learn about the types of sentences, punctuation rules, and capitalization rules, as well as how to identify and then correctly use many of the parts of speech.

3

10:05 AM –
12:00 PM

3rd-Grade Reading Comprehension, Vocabulary, Grammar & Composition:

3rd-Grade Reading and Comprehension is filled with stories, questions, and exercises that will help your child learn to think critically, summarize a passage, and improve his reading skills. Oral, independent, and comprehensive reading exercises also help students to improve and master skills they will need in third grade. Selected vocabulary words are integrated into the curriculum to build your child's spoken and written vocabulary. In the grammar and composition component of this course, the teacher will emphasize the basics of sentence structure, parts of speech, word usage, and sentence diagramming to help students build their language arts skills. Students will apply what they learn to their composition assignments and develop a love for writing in the process.

2023 Summer School Class Descriptions

4

10:05 AM –
12:00 PM

4th-Grade Reading Comprehension, Vocabulary, Grammar & Composition:

During this class we will read and discuss novels as a tool to build reading fluency and comprehension. Your child will also participate in daily reading comprehension activities. In addition, the students will learn fourth-grade vocabulary words to foster improvement in their spoken and written vocabulary. This class gives students a great way to improve their reading and critical-thinking skills. The grammar and composition components of this course will cover capitalization, punctuation, word usage, and the parts of speech. Your child will also be introduced to the Faith Baptist writing strategy. This format will provide the tools your student needs to write outstanding essays across all subjects.

5

10:05 AM –
12:00 PM

5th-Grade Reading Comprehension, Vocabulary, Grammar & Composition:

This course is designed to strengthen your child's reading comprehension skills. Students will participate in reading comprehension activities daily, and they will read and discuss novels as a group to develop comprehension and critical-thinking skills. In addition, students will be introduced to fifth-grade vocabulary words and word parts to improve their reading skills. The grammar and composition components of this course will develop and improve your child's grammar and writing skills. We will cover the parts of speech, verb usage, sentence structure, punctuation, and capitalization. Combining grammar mechanics and critical thinking, the students will continue to learn Faith Baptist's writing strategy for effective essay writing.

6

10:05 AM –
12:00 PM

6th-Grade Reading Comprehension, Vocabulary, Grammar & Composition:

Sixth graders will read and analyze different types of writing and learn how to provide literary responses through various essays. Basic skills in comprehension will be taught and practiced. Sixth-grade vocabulary words, roots, prefixes, and suffixes will be introduced to foster higher-level thinking. The grammar and composition component of this course will review key concepts in sentence construction while reinforcing capitalization and punctuation rules. Students will be able to effectively recognize and use the eight parts of speech. Several compositions will test the students' abilities to create and publish original essays over a variety of topics. This course is for fifth-grade students entering sixth grade next year AND for sixth-grade students making up a D or F in Language 6 and/or Reading 6.

2023 Summer School Class Descriptions

SUMMER ENRICHMENT—Session 1

CLASS	GRADES	TIME	CLASS DETAILS
12x12: 12 Life Skills Every Child Should Know by Age 12 <i>Enrichment Class</i>	4–8	8:00 AM – 9:55 AM	Have you ever wondered where or how to start teaching your child life skills? With kids growing up so fast, teaching your children to be self-sufficient should start early. But what is important for your kids to know? We compiled a course of 12 life skills every child should know by age 12 : how to clean, how to find their way home, how to make healthy choices, how to use basic tools, how to prepare simple meals, how to do the laundry, how to change a flat tire, how to manage money, how to have good manners, how to show gratitude, how to advocate for themselves, and how to treat a wound.
Basketball <i>Enrichment Class</i>	4–8	8:00 AM – 9:55 AM	In Intramural Basketball , students will learn the basic skills of shooting, rebounding, ball handling, and all the other fundamentals of the game. Students will also learn how to practice effectively to improve their skills and will have the opportunity to participate in scrimmage basketball games.
Digital Art iPad, Apple Pencil & Procreate Pocket App (installed on iPad) Required <i>Enrichment Class</i>	4–8	8:00 AM – 9:55 AM	Digital Art students will learn how to draw and design characters using their iPad and Apple Pencil and Procreate, an application loved by creative pros and aspiring artists alike. Procreate is the leading creative application made for iPad. Students will learn how to create expressive sketches, rich paintings, gorgeous illustrations, and beautiful animations. Students who want to take this class will need a working tablet, stylus/pencil, and the Procreate Pocket application.
Conversational Spanish <i>Enrichment Class</i>	1–3	8:00 AM – 9:55 AM	Conversational Spanish students will learn how to carry basic conversations in Spanish, sing Spanish songs, and enjoy many fun things about Latin American culture. They will also learn vocabulary words for greetings, numbers 1–100, colors, days of the week, and months of the year.
Cooking with Style <i>Enrichment Class</i>	4–8	8:00 AM – 9:55 AM	This fun class is for students who want to learn how to be a hit in the kitchen. Students will don their toques, roll up their sleeves, and learn the basics of cooking soups, lunches, dinners, and desserts. Along the way in Cooking with Style , they will be given basic instruction in table etiquette and meal presentation.
Girls' Cheer & Color Guard <i>Enrichment Class</i>	4–8	8:00 AM – 9:55 AM	Girls in Cheer & Color Guard will learn the basics of arm positions, jumps, and cheers. In the color guard portion of the class, students will learn to use flags and props to timed movement. Their flag tosses and stunts will be choreographed to music, culminating in a color guard routine performance at the end of the class.
Soccer Camp <i>Enrichment Class</i>	1–3	8:00 AM – 9:55 AM	Improve your game and have serious fun! The Soccer Camp class is geared toward players of all abilities. Students will work on mastering the proper fundamentals and techniques, advancing their overall skills, and knowledge of the game. This camp is a wonderful opportunity for young players to learn through a mix of drills, games, and competitive play. Soccer Camp is open to boys and girls, ages 5–8, and is an ideal opportunity for players looking to learn skills necessary to improve their game and to have some soccer fun!
Wonderworks: Fun with Applied Science <i>Enrichment Class</i>	1–3	8:00 AM – 9:55 AM	Wonderworks is about discovering how fun science can be! Through this class, students will become familiar with the different branches of science—biology, anatomy, chemistry, physics, and forensics. Students will apply the concepts we learn to investigations, activities, projects, and experiments. Whether they are building bridges, flying airplanes, solving mysteries, or dissecting plants, students will get to explore God's amazing creation!

2023 Summer School Class Descriptions

SUMMER ENRICHMENT—Session 2

CLASS	GRADES	TIME	CLASS DETAILS
Beginning Music Performance <i>Enrichment Class</i>	1–3	10:05 AM – 12:00 PM	In Beginning Music Performance , students will be taught basic note reading using music letters, solfege, and numbers. Key music terms regarding tempo, dynamics, and note values will also be taught. Students will also learn vocal warm-ups, solo singing, and songs for groups. Incorporated in the learning experience is vocal projection through speaking and expressing one’s ideas through play acting (3–5 minutes of acting snippets with a short song at the end). Each student’s goal is to perform a solo number by the end of the program, to learn to sing together, and to act short musical plays together.
Cooking with Style <i>Enrichment Class</i>	4–8	10:05 AM – 12:00 PM	This fun class will be for students who want to learn how to be a hit in the kitchen. Students will don their toques, roll up their sleeves, and learn the cooking basics of soups, lunches, dinners, and desserts. Along the way in Cooking with Style , they will be given basic instruction in table etiquette and meal presentation.
Drama <i>Enrichment Class</i>	1–6	10:05 AM – 12:00 PM	Lights! Camera! Action! Students in Drama will develop acting and speaking skills including characterization, blocking, and interaction with other characters. The students’ abilities will then be put to the test as they perform a play on the last day of summer school.
Get Artsy <i>Enrichment Class</i>	1–3	10:05 AM – 12:00 PM	This class is designed for the child who loves to draw and create new things. Get Artsy will help children develop their talents and give them techniques to draw and create at a whole new level. Children love this fun class, and they will learn to express their art in brand new ways!
Personal Finance <i>Enrichment Class</i>	4–8	10:05 AM – 12:00 PM	The one subject every student must understand to be successful in today’s world is money and finances. In Personal Finance students will be introduced to the basics of making a budget, understanding insurance, balancing an account, and buying or leasing a car. Student exercises will include shopping for a house or an apartment according to their budget, writing a resume, and practicing a job-winning interview. This exciting class will set your student ahead of the pack by preparing them for these important steps in his life!
The Wide World of Sports <i>Enrichment Class</i>	4–8	10:05 AM– 12:00 PM	The Wide World of Sports is all about sports, games ... and more sports and games! This class offers a variety of sports training as we teach fundamental skills and play games to make sure that your student enjoys an activity-filled experience. Our students will enjoy a wide range of activities such as volleyball, flag football, soccer, baseball, and softball. We will also introduce campers to sports such as spike ball and track and field. We provide a safe and welcoming environment where, no matter his experience level, your child can make new friends, learn new skills, and develop important life skills!
Wonderworks: Fun with Applied Science <i>Enrichment Class</i>	4–8	10:05 AM– 12:00 PM	Wonderworks is about discovering how fun science can be. Through this class, students will become familiar with the different branches of science—biology, anatomy, chemistry, physics, and forensics. Students will apply the concepts we learn to investigations, activities, projects, and experiments. Whether they are building bridges, flying airplanes, solving mysteries, or dissecting plants, students will get to explore God’s amazing creation!

2023 Summer School Class Descriptions

JUNIOR & SENIOR HIGH ACADEMICS

CLASS	GRADE	SEMESTER	TIME	CLASS DETAILS
English Grammar & Literature <i>Academic Class</i>	9–12	Semester 1 OR Semester 2	7:30 AM–9:55 AM	<p>Senior-High English instruction will develop the student’s advanced grammar and writing skills, and it will include a literary project. Students repeating English to fulfill a graduation requirement will also retake the appropriate semester of literature tests. A full year of English is available for current Faith Baptist students only. To receive course credit, students cannot miss more than three days of class.</p> <p>Junior-High English instruction will develop the student’s grammar and writing skills. This class also includes a literary project. Students repeating English to fulfill a graduation requirement will also retake the appropriate semester of literature tests. A full year of English is available for current Faith Baptist students only. To receive course credit, students cannot miss more than three days of class.</p>
		Semester 1 OR Semester 2	10:05 AM–12:30 PM	
World History <i>Academic Class</i>	7 & 9	Semester 1	7:30 AM–9:55 AM	<p>World History covers the history and geography of the Western World. This course provides credit for one or two semesters of world history. Faith Baptist students who would like a study hall during the school year may take a semester or more of history and get ahead. Students cannot miss more than three days of class if the goal is to receive school credit.</p>
		Semester 2	10:05 AM–12:30 PM	
U.S. History <i>Academic Class</i>	8 & 11	Semester 1	7:30 AM–9:55 AM	<p>U.S. History covers history of the United States from its founding until the present day. This course provides credit for one or two semesters of U.S. History. Faith Baptist students who would like a study hall during the school year may take a semester or more of history and get ahead. Students cannot miss more than three days of class if the goal is to receive school credit.</p>
		Semester 2	10:05 AM–12:30 PM	
Pre-Algebra <i>Academic Class</i>	7–12	Semester 1	7:30 AM–9:55 AM	<p>Pre-Algebra students will study patterns of numbers, operations, and variables; simplifying expressions; solving equations; graphing linear equations; calculating ratio/proportions as well as other topics. Students cannot miss more than three days of class if the goal is to receive school credit. (Current Faith Baptist students entering seventh grade who need to make up sixth-grade math must enroll in this class, not sixth-grade math. A full year of pre-algebra is not available.)</p>
		Semester 2		
Algebra 1 <i>Academic Class</i>	7–12	Semester 1	10:05 AM–12:30 PM	<p>Algebra 1 students will study real numbers, inequalities, factoring, polynomials, linear and quadratic equations, and graphs as well as other topics. Students cannot miss more than three days of class if the goal is to receive school credit. Faith Baptist sixth-grade students entering seventh grade may take Algebra 1 Semester 1 if they have successfully met the requirements for Algebra 1 in sixth grade or met the requirements to attempt placement by passing Algebra 1 summer school. (Algebra 1 Semester 2 is available by private tutor only. Please contact the Administration Office for more details.)</p>
		Semester 2		
Geometry <i>Academic Class</i>	8–12	Semester 1	10:05 AM–12:30 PM	<p>In Geometry, points, lines, and planes will be analyzed to develop geometrical reasoning and proofs. Triangular and various polygonal shapes will be compared for congruence and similarity. (Prerequisites: passing grade in Algebra 1. To receive course credit, students cannot miss more than three days of class. A full year of Geometry is not available except for current Faith Baptist students who meet certain requirements and have instructor and principal approval. Please contact the Administration Office for more details.)</p>
		Semester 2		

2023 Summer School Class Descriptions

CCU Statistics
Academic Class

11–12

Semester 1 & 2

9:30 AM–2:30 PM
June 5–July 14

CCU Statistics is only available for current Faith Baptist students only. This course is equivalent to a college-level statistics class. The major topics are exploring data, planning a study, anticipating patterns, probability, and statistical inference. Prerequisites: a minimum 85% B grade in Pre-Calculus second semester. Next, students cannot miss more than three days of class. Finally, since this is a dual-enrollment course, students must also register for the class through Colorado Christian University and pay CCU's \$200 course registration fee. CCU enrollment details will be sent to parents during the first week of class. Only final grades of "C" or higher will receive college credit.)

Spanish 1 or 2
Academic Class

9–12

Semester 1
Semester 2

Private Tutoring

Spanish 1 or 2—Semester 1 and/or Semester 2 is offered through private tutoring only for current Faith Baptist students making up a D or F grade. Please contact the Administration Office for further details.
